—AND—
General Agents for Wilder's Saffes.

WE can give to the public facts in regard to the WILDERSAFFES. They were thoroughly tested during our confinement of July 14th and 5th, and proved to be the best.

We are also Agents for the most celebrated bakery of bread in New England, viz: **BOLDEN & SONS**, of Boston. Their bread, received by us weekly, warranted fresh, baked in the best of wheat, and we guarantee to sell it less than it can be purchased in our city.

To Farmers, Dealers and Shipmen we offer

goods, in order that they may test the quality of our goods and compare with our price list. Please examine and you will purchase. decl

SNOW POLISHER

Patented May 29, 1866.

This is an article for washing without rubbing, except in very dirty places, which will require a very light rub, and unlike other preparations of cord, for its purpose, **WILL NOT ROT THE CLOTHES**, but will leave them much whiter than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for nearly twenty years, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following:

It saves all the expense of soap used on cotton and woolen goods.

It saves most of the labor of rubbing, and wear and tear.

It is easier than the time and labor usually required to impart a beautiful gloss and lustre, and softness, upon other mule. No water required except to moisten.

in the powder
Directions with each package.
And can be readily applied by a single trial.
The cost of washing for a family of five or six persons,
will not exceed **THREE CENTS.**
The manufacturers of this powder are aware that
many useless compounds have been introduced to be
usable which have rotted the cloth, or failed in remov-
ing the dirt, but knowing the intrinsic excellence of
this article they have proclaimed it as being adapt-
ed to meet a demand which has long existed, and
which has heretofore remained unsupplied.
